

operator==

gscoped_ptr::get

doris::internal::gscoped
_ptr_impl::get

```
graph LR; A[operator==] --> B[gscoped_ptr::get]; B --> C[doris::internal::gscoped_ptr_impl::get];
```

The diagram illustrates a sequence of three operations or function calls. It begins with a grey rectangular box containing the text 'operator=='. A blue arrow points from this box to a white rectangular box containing 'gscoped_ptr::get'. Another blue arrow points from the second box to a third, larger white rectangular box containing 'doris::internal::gscoped_ptr_impl::get'.
