

doris::segment_v2::
FileColumnIterator::
get_row_ranges_by_zone_map

```
graph LR; A["doris::segment_v2::  
FileColumnIterator::  
get_row_ranges_by_zone_map"] --> B["get_row_ranges_by_zone_map"]; B --> C["_calculate_row_ranges"]
```

The diagram illustrates a sequence of three function calls. The first box on the left contains the namespace and class information for the first call. A blue arrow points from this box to a second box in the middle, which contains the function name. Another blue arrow points from the second box to a third box on the right, which contains the function name. The third box is shaded gray, while the others are white.
