

doris::TabletsChannel
::open

doris::stream_load
::VOlapTableSink::send

Reset

```
graph LR; A["doris::TabletsChannel::open"] --> D["Reset"]; B["doris::stream_load::VOlapTableSink::send"] --> D;
```

The diagram illustrates a control flow where two distinct operations trigger a 'Reset' event. On the left, there are two white rectangular boxes with black borders. The top box contains the text 'doris::TabletsChannel::open' and the bottom box contains 'doris::stream_load::VOlapTableSink::send'. Two blue arrows originate from the right side of these boxes and point towards a single gray rectangular box on the right labeled 'Reset'.
