

doris::vectorized::
VSetOperationNode::sink_probe

```
graph LR; A["doris::vectorized::  
VSetOperationNode::sink_probe"] --> B["mark_data_in_hashtable"]
```

The diagram consists of two rectangular boxes connected by a blue arrow pointing from left to right. The left box is white with a black border and contains two lines of C++ code: 'doris::vectorized::' and 'VSetOperationNode::sink_probe'. The right box is gray with a black border and contains the text 'mark_data_in_hashtable'.

mark_data_in_hashtable
