```
graph BT; A["/Users/dabowang/doris  
/be/src/exec/rowid_fetcher.h"] --> B["/Users/dabowang/doris  
/be/src/exec/rowid_fetcher.cpp"]; A --> C["/Users/dabowang/doris  
/be/src/vec/exec/vexchange_node.cpp"];
```

The diagram illustrates a file dependency structure. At the top is a header file box. Below it are two source file boxes. A blue arrow points from the left source file box to the header file box, and another blue arrow points from the right source file box to the header file box, indicating that both source files include the header file.
