

`_init_with_desc`

```
graph LR; A[_init_with_desc] --> B[doris::Status::OK]; B --> C[doris::Status::Status];
```

The diagram illustrates a sequence of three elements connected by arrows. The first element, `_init_with_desc`, is contained within a gray rectangular box. A blue arrow points from this box to the second element, `doris::Status::OK`, which is in a white rectangular box with a black border. Another blue arrow points from the second box to the third element, `doris::Status::Status`, also in a white rectangular box with a black border.

`doris::Status::OK`

`doris::Status::Status`
