doris::Tablet::write
_cooldown_meta

comparator

```
graph LR; A["doris::SizeBasedCumulativeCompactionPolicy::calc_cumulative_compaction_score"] --> C[comparator]; B["doris::Tablet::write_cooldown_meta"] --> C;
```

The diagram illustrates a dependency or data flow. Two white rectangular boxes on the left contain code snippets. The top box contains `doris::SizeBasedCumulativeCompactionPolicy::calc_cumulative_compaction_score`. The bottom box contains `doris::Tablet::write_cooldown_meta`. Two blue arrows originate from the right side of these boxes and point towards a gray rectangular box on the right labeled `comparator`.
