

get\_segments\_key\_bounds

```
graph LR; A[get_segments_key_bounds] --> B[doris::Status::OK]; B --> C[doris::Status::Status];
```

A flow diagram illustrating the return value of the `get_segments_key_bounds` function. It consists of three rectangular boxes connected by blue arrows. The first box, on the left, is shaded gray and contains the text `get_segments_key_bounds`. A blue arrow points from this box to a second, white box in the middle containing `doris::Status::OK`. Another blue arrow points from the second box to a third, white box on the right containing `doris::Status::Status`.

doris::Status::OK

doris::Status::Status
