

prepare

```
graph LR; A[prepare] --> B[data_type]
```

The diagram consists of two rectangular boxes connected by a horizontal blue arrow. The left box is white with a black border and contains the text 'prepare'. The right box is gray with a black border and contains the text 'data\_type'. The arrow points from the right side of the 'prepare' box to the left side of the 'data\_type' box.

data\_type
