do_compaction

```
graph LR; A[doris::BaseCompaction::execute_compact_impl] --> C[do_compaction]; B[doris::CumulativeCompaction::execute_compact_impl] --> C;
```

The diagram illustrates a call graph where two different function calls, `doris::BaseCompaction::execute_compact_impl` and `doris::CumulativeCompaction::execute_compact_impl`, both point to a common target function, `do_compaction`. The source functions are in white boxes, and the target function is in a gray box. Blue arrows indicate the direction of the call.
