

insert_many_from

```
graph LR; A[insert_many_from] --> B[insert_from]; B --> C[insert];
```

A flowchart illustrating a sequence of three SQL operations. The first operation, 'insert_many_from', is highlighted with a gray background. A blue arrow points from this box to the second box, 'insert_from', which has a white background. Another blue arrow points from the second box to the third box, 'insert', also with a white background. All boxes have a dark gray border and are arranged horizontally.
