

```
doris::vectorized::  
NewOdbcScanNode::_init  
_scanners
```

```
graph LR; A["doris::vectorized::  
NewOdbcScanNode::_init  
_scanners"] --> B[prepare]
```

A diagram showing a call to the `_init_scanners` method of the `doris::vectorized::NewOdbcScanNode` class. A blue arrow points from this call to a box labeled `prepare`, indicating that the preparation phase follows the initialization of scanners.
