

```
doris::vectorized::  
AggregateFunctionPercentile  
    Approx::reset
```

```
graph LR; A["doris::vectorized::  
AggregateFunctionPercentile  
    Approx::reset"] --> B[reset]
```

The diagram illustrates a function call. A light gray box on the left contains the text `doris::vectorized::AggregateFunctionPercentile` followed by an indented `Approx::reset`. A blue arrow points from the right side of this box to a darker gray box on the right, which contains the text `reset`.

`reset`
