

~UserFunctionCacheEntry

```
graph LR; A[~UserFunctionCacheEntry] --> B[doris::dynamic_close]
```

A diagram showing a pointer relationship. On the left, a gray rectangular box contains the text '~UserFunctionCacheEntry'. A blue arrow points from the right side of this box to the right side of another rectangular box on the right. This second box is white with a black border and contains the text 'doris::dynamic\_close'.

doris::dynamic\_close
