

GetMonoTimeMicros

```
graph LR; A[GetMonoTimeMicros] --> B[clock_gettime]; B --> C[__syscall_ret];
```

The diagram illustrates a three-step process flow. It begins with a gray rectangular box containing the text 'GetMonoTimeMicros'. A blue arrow points from this box to a white rectangular box containing 'clock_gettime'. A second blue arrow points from the 'clock_gettime' box to a final white rectangular box containing '__syscall_ret'. All boxes have a thin black border.

clock_gettime

__syscall_ret
