

doris::BloomFilterFuncBase
::assign

doris::BloomFilterFuncBase
::init_with_fixed_length

create

```
graph LR; A["doris::BloomFilterFuncBase::assign"] --> C["create"]; B["doris::BloomFilterFuncBase::init_with_fixed_length"] --> C;
```

The diagram illustrates two function pointers on the left, each enclosed in a white box with a black border. The top box contains the text 'doris::BloomFilterFuncBase::assign' and the bottom box contains 'doris::BloomFilterFuncBase::init_with_fixed_length'. Two blue arrows originate from the right side of these boxes and point towards a single gray box on the right labeled 'create'.
