

~OrcReader

```
graph LR; A[~OrcReader] --> B[close];
```

A diagram showing a transition from a state labeled '~OrcReader' to a state labeled 'close'. The '~OrcReader' state is represented by a white rectangular box with a black border. The 'close' state is represented by a gray rectangular box with a black border. A blue arrow points from the right side of the '~OrcReader' box to the left side of the 'close' box.
