

/Users/dabowang/be
_all/glibc-compatibility
/musl/syscall.h

```
graph TD; A["/Users/dabowang/be_all/glibc-compatibility/musl/syscall.h"] --> B["sys/syscall.h"]; A --> C["syscall_arch.h"]
```

The diagram illustrates a file inclusion hierarchy. At the top is a dark gray box containing the path `/Users/dabowang/be_all/glibc-compatibility/musl/syscall.h`. Two blue arrows point from this box to two light gray boxes below it. The left box contains `sys/syscall.h` and the right box contains `syscall_arch.h`.

sys/syscall.h

syscall_arch.h
