

/Users/dabowang/doris
/be/src/vec/exec/vparquet
_scanner.h

```
graph BT; A["/Users/dabowang/doris  
/be/src/olap/push_handler.cpp"] --> C["/Users/dabowang/doris  
/be/src/vec/exec/vparquet  
_scanner.h"]; B["/Users/dabowang/doris  
/be/src/vec/exec/vparquet  
_scanner.cpp"] --> C;
```

The diagram illustrates a dependency relationship between three files. At the top is a header file, `_scanner.h`, located at `/Users/dabowang/doris/be/src/vec/exec/vparquet`. Below it are two source files. The file on the left, `push_handler.cpp`, located at `/Users/dabowang/doris/be/src/olap`, has a blue arrow pointing to the header file. The file on the right, `_scanner.cpp`, located at `/Users/dabowang/doris/be/src/vec/exec/vparquet`, also has a blue arrow pointing to the header file. The header file box is shaded gray, while the source file boxes are white.
